### When did this happen? (04.04.21 12:59am) Match summary shows that I revived and respawned both team mates. Yet, the NO ONE LEFT BEHIND badge is still locked for Bangalore.

### My squad. This should be game 111.

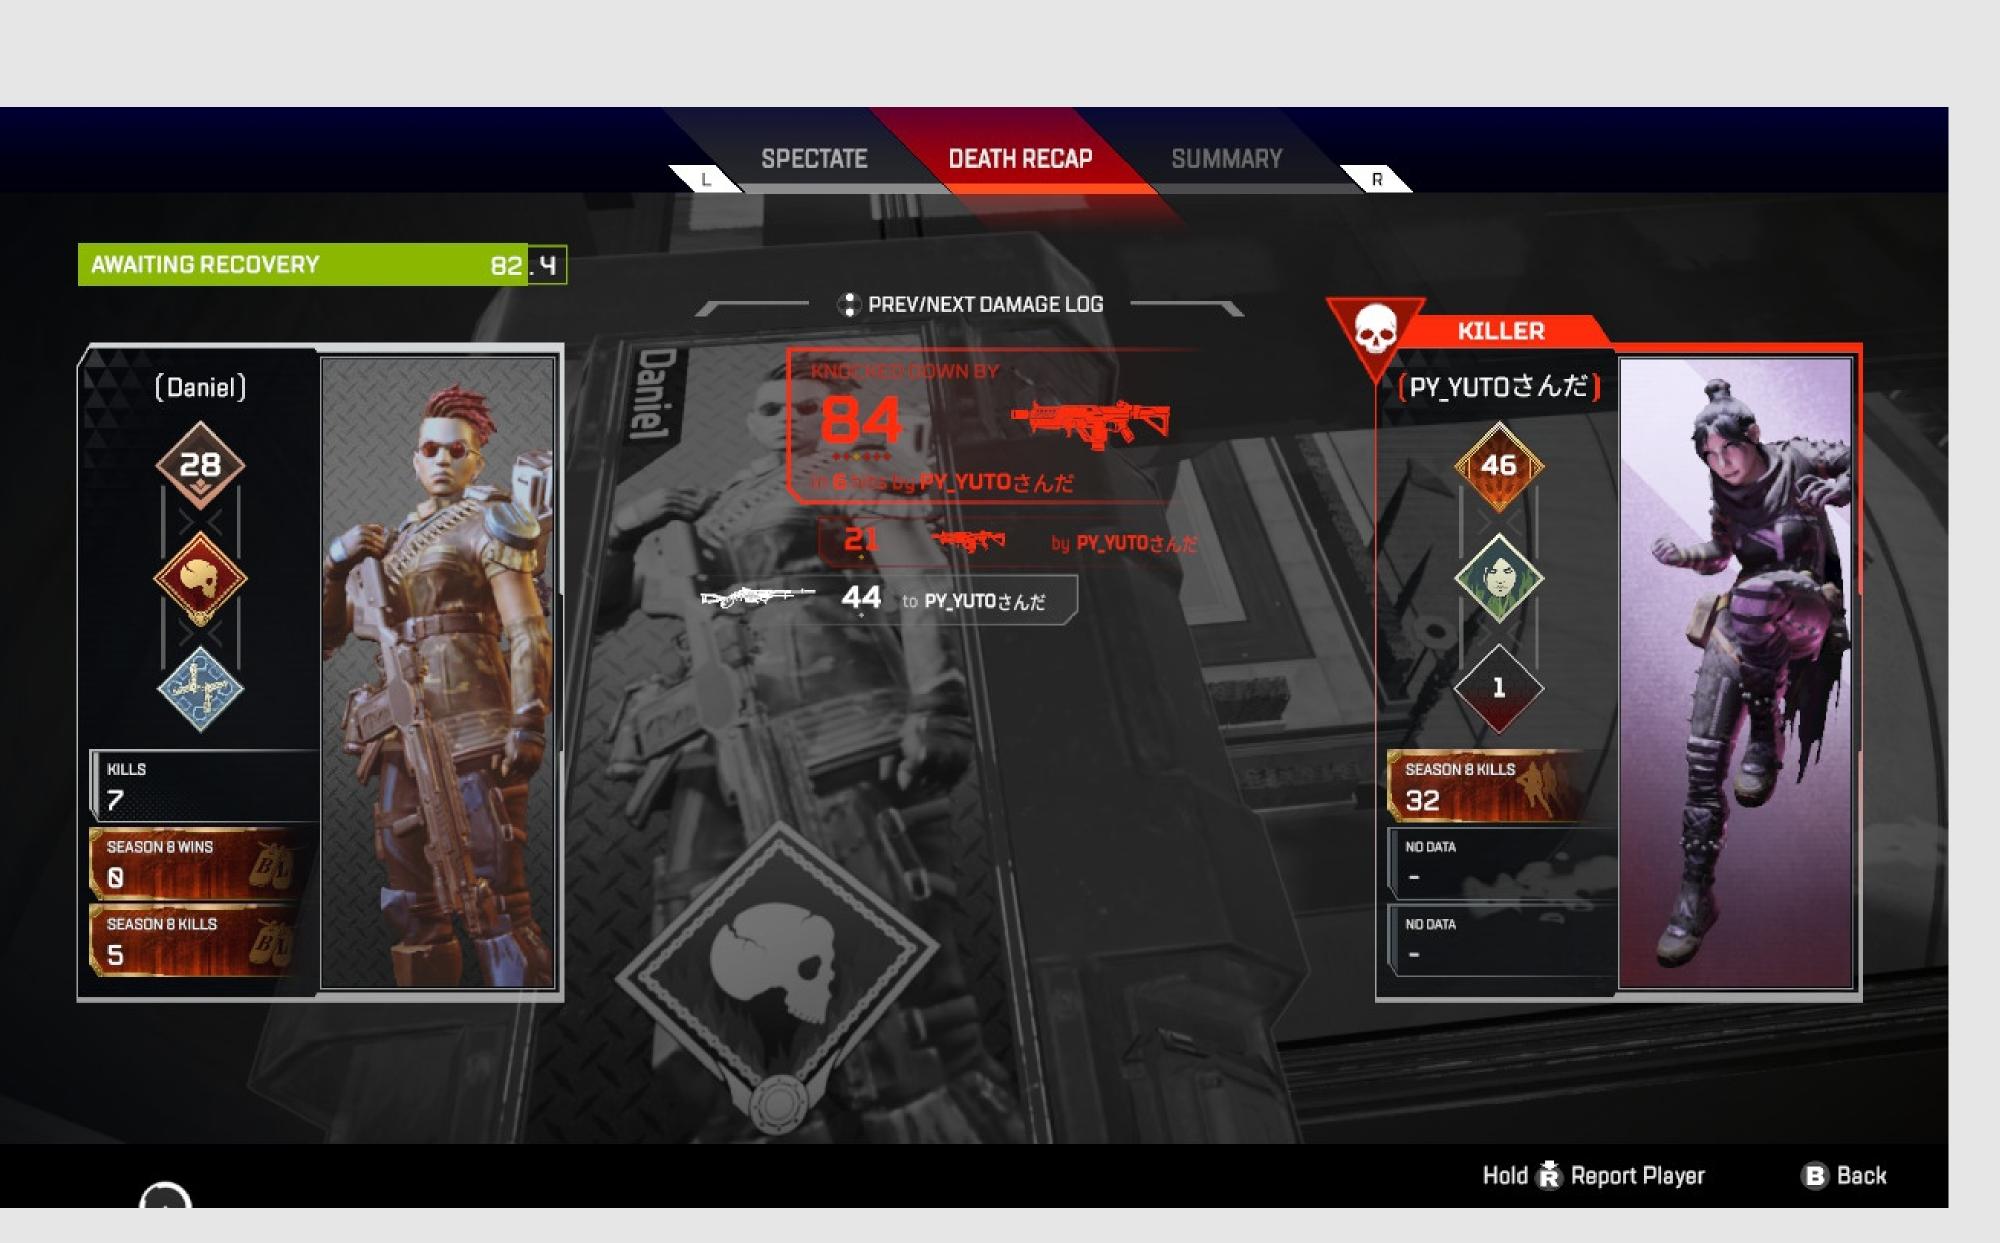

## Squad eliminated screen.

### Another example of the match summary button totally disappearing after a match that did not count.

In-game screenshot. (See squad to verify) I have performed 44 damage with 30-30.

### Game skips the summary screen. Note the summary screen button is now missing! **30-30 Damage on Daily still shows ZERO.** Stats screen shows only 110 games.
